Worldwide Safety Approvals and Consulting Since 1979

Lamothe Approvals Quicker to Market Program

Lamothe Approvals offers a fully customizable program for product designers who can benefit from our unique insight into the world of product safety. Over thirty years of assisting manufacturers with product safety certifications have proven that even the best design teams could benefit from assistance during the design process in order to eliminate costly redesigns and eliminate failures and stalled projects with the certification agencies. With the Lamothe Approvals Quicker to Market Program, your product will quickly gain safety certifications and achieve cost savings as a result.

The Quicker to Market Program consists of four key elements:

- Seminars** to provide you with the tools necessary to meet the requirements (component selection, design tips, etc.)
- Product Design Assistance** to provide continual guidance throughout the product design stage.
- Pre-Compliance Testing** to thoroughly test your prototype to ensure that it will meet the requirements.
- Agency Submittal Package** will be provided to put your certification in fast-track mode to success.

Lamothe Approvals is unique in many ways. For over thirty years Lamothe Approvals has been assisting clients with their certification needs for a variety of North American and IEC standards and European Directives. Our staff experience includes product design, product approvals, standards writing and membership on industry advisory councils.

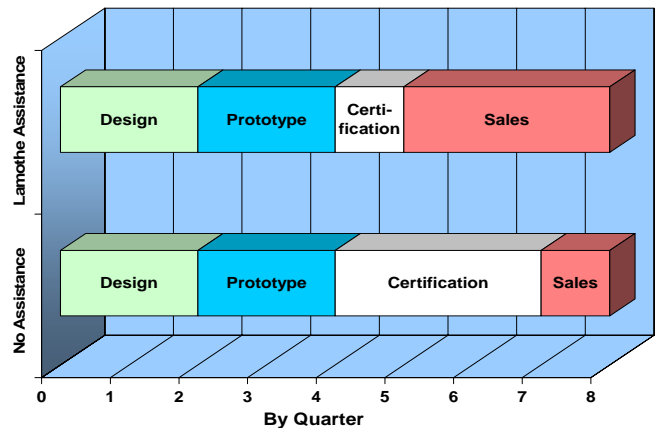

It is this wealth of experience that backs up our offer to help clients with their projects. At Lamothe Approvals we:

- Have the expertise you need.
- Have extensive product design experience.
- Have over 30 years of experience working with clients, agencies and electrical safety standards.
- Work closely with your engineering team to ensure the safety requirements are being met.
- Specialize in the **60950-1** and **61010-1** standards.

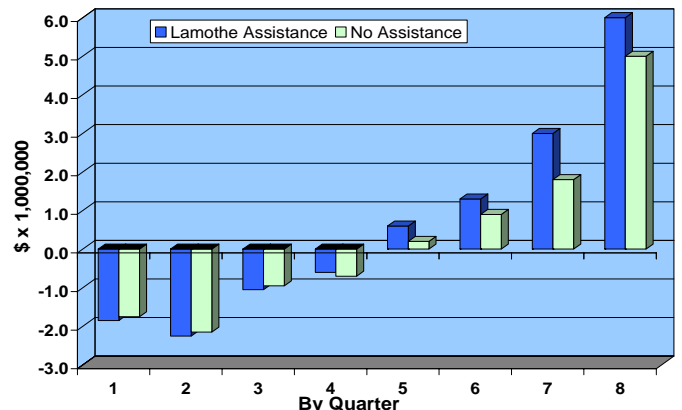

Our clients using the Quicker to Market Program move very quickly from the design stage to certification.

Why use Lamothe Approvals Quicker to Market Program?

- Keep ahead of your competition by getting your product to market quicker.
- Gain credibility with your sales department, marketing team and customers.
- Your customers can expect your product will be available on schedule.
- Go through design, prototyping and testing only once - saving critical time and reducing your overall costs.
- Your certifications are much easier and save you time, so you can focus on what you do best!
